

about

Untold Virginia is an 8-part limited audio fiction series.

Friends since college, ELIZABETH and RUTH are starting a podcast. On their first expedition to uncover something noteworthy, they succeed and find a mysterious, underground force that neither can explain. While Elizabeth relishes in unpacking its mystery, Ruth continuously retreats – deteriorating into a shell of her former self. But is this just what happens when two friends work together? Or is something inserting itself into Elizabeth and Ruth’s relationship, threatening both of their lives in the process?

Styled as live-to-tape audio recordings, **Untold Virginia** is an exploration of how relationships evolve and what happens when you define others solely by your own ambition.
